BIG TENT MEETINGS IN BIG SANDY TOWNS NEXT WEEK

Two Days Each for Pikeville, Paintsville and Louisa, Respectively, with Two Programs Each Day of Interest to Farmers and Other Good Citizens.

AT LOUISA SEPTEMBER 19-20

The Community meetings announced a few weeks ago and then cancelled because of the railroad strike have been again arranged for the combined organizations of the State. There will be two days this time instead of three. A large tent will be used for the meetings and there will be two programs each day, starting at 2 p. m. and 7:30 p. m.

Free admission and no collection. This is a movement to get people together and discuss various problems bearing upon the betterment of our State, county, schools, churches, roads and homes.

Speakers, demonstrators and motion pictures furnished by National and State agencies.

These meetings have been held in 46 counties in Kentucky and have been attended by thousands. Come to Louisa on Friday and Saturday of next week, the 19th and 20th. There will be some of the best speakers possible to obtain, and nobody should miss it who can possibly attend. Lawrence county has failed many times to show the interest merited by some such free movement as this for the uplift of the state and county. We hope this may prove an exception. Do not expect your neighbors to represent your locality for you. Come yourself.

The committee appointed in Louisa are doing a lot of work without any reward except the hope that the meetings may do the people some good. This hope has no chance for realization unless the people attend the meetings.

M. F. CONLEY,
County Chairman.

BLAINE PIPE LINE WILL BOOST OIL

The most important event in prospect for the oil situation in Lawrence county is the completion of the pipe line from Blaine to Busseyville, as that will make a market for the oil produced in that territory. Development will go forward with a plunge when the line gets into operation. The Blaine Gas & Oil Company, holding the lease, have several tanks of oil and are planning to transport. On the line as far as the Union has some wells that will close to 100 barrels per day. The parties are in that field also with drilling wells and a great deal of drilling is under contract.

Preston A. Watkins are moving two drilling rigs from Louisa county to Lawrence county.

The National Pipeline is pushing the development of the line near Louisa at a very rapid rate. Four wells are being put down in the Busseyville field to test the people.

The Blaine Gas shows signs of speeding up development of its large body of oil in the Louisa field. No. 13 on the Severn is the last one started.

The Blaine Gas is going along fairly well with development. No. 3 on the Severn is being started, after some delay.

The Blaine Gas Development company at Potomac is pushing away and will soon have a drilling of 20 wells.

George H. Rice has sold to Mr. Slagel a body of land which he recently took up in the Louisa county.

City Council Corrects

An Erroneous Report

The city officials of Louisa have been informed that a report is in circulation to the effect that the City Council was antagonistic to the proposition of granting a franchise for electric lights and for a railroad siding desired by the Lobaco company.

They have asked the NEWS to say that no such request has ever been presented to the City Council and that body has had no chance to act upon any such proposition.

HON. E. P. MORROW SPOKE AT LOUISA WEDNESDAY

ACQUIT MEN WHO SHOT TRESPASSER AT FETTER HOME

After deliberating only twenty minutes a jury in the Boyd Circuit Court at Catlettsburg returned a verdict of "not guilty" in the case of Claybourne Hughes and Albert Darby for killing Charles Hammond on the lawn of the residence property of Dr. and Mrs. S. F. Fetter in Ashland.

The shooting occurred about 3 a. m. on August 17th. The two men named above were employed as guards because of a blackmailing letter received a few days previous, demanding \$10,000 and threatening to dynamite the home and marry John Mayo and his sister Margaret if the money were not delivered at a certain place within a week.

The evidence at the trial showed that Hammond was shot after he had entered the Fetter grounds and refused to halt when commanded to do so. The man fell at a point 21 feet inside the yard, under a deep shade. He was removed to a hospital and died a few hours later. A physician and an officer questioned him, but he declined to explain his presence on the grounds at that hour or to make any statement about the affair, although he was conscious until the end. It is generally believed he was the author of the letter.

Hughes and Darby are young men of excellent character and reputation. Attorneys for the defense were J. W. M. Stewart, Senator George B. Martin and Judge Dysard.

PRICE OF CRUDE OIL INCREASED

Pittsburgh, Pa.—A new high record in price was reached by the announcements of prices paid for Pennsylvania crude oil. The Joseph Seep Agency made the announcement of \$4.25 for Pennsylvania crude, an advance of 25 cents a barrel. All other grades except Redland were advanced 10 cents. Redland was unchanged. The new prices of others are: Corning 2.95, Cabell 2.87 and Somerset 2.70.

The Somerset price is the one that governs in Kentucky. It has stood at \$2.60 for nearly two years, but is now 2.70. The owners of Berea wells in Lawrence county have long been hoping to receive the Pennsylvania price.

JUDGE J. P. ADAMS DEAD.

He went to France in February 1918 and on November 1st was severely wounded in the battle of Valenciennes. He expects to be discharged as soon as his term in the hospital is completed. He is at Windsor, Canada.

JOHN F. BURGESS.

The funeral service for Mr. John F. Burgess will be held at the Burgess home at Georges creek Sunday, September 23. Owing to the fact that some of his grandsons were overseas at the time of the burial, the funeral was deferred and will be preached at the above stated time by Rev. H. B. Hewlett of this city.

OIL IN JOHNSON

The Bed Rock Oil company is reported to have made a strike in Johnson-co. near Oil Spring. Estimates are from 25 to 100 barrels per day.

The Little Paint Oil company has drilled in two wells recently which show 25 barrels per day.

Several gas wells of large capacity have been found. Johnson is a very promising field.

A well on the land of Jay H. Northup was brought in and is estimated to be good for 25 barrels.

As long as we have been in Louisa our stock has never been as complete as it is now. Bear in mind this is the time of the year when you need shoes, clothing, furnishings. Why put it off?

Business will be carried on under the new company as before, and greatly enlarged.

In addition to our soft drink and baking business, which we have followed since incorporation, the new company will install an Ice and Cold Storage Plant and an Electric Light Plant for the city of Louisa. Our reason for installing the Ice Plant is to fill a needed industry in this territory and a very beneficial help to the soft drink industry. The reason for the installing of an electric plant is to furnish power to the city and reduce the overhead expenses for the ice plant. All of the above will be under one management, one sales force and one general overhead, thereby minimizing all cost. An ice plant must run twenty-four hours each day and the Electric and Ice Plant being gas driven can be operated by the same force, each carrying a part of

the others burden, reducing costs far below the ordinary plant.

Summary of the Business Since Incorporation

Sales for 1916 \$ 80,114.02, Net earnings \$ 9,985.43
Sales for 1917 \$156,125.75, Net earnings \$14,580.97
Sales for 1918 \$262,326.07, Net earnings \$22,029.62
Net earnings first six month of 1919 - \$15,067.05

The outlook for our business is brighter than ever. Bread, once a luxury, is now a household necessity. With ever increasing demand soft drinks are on a higher level and are now classed as food beverages. Our Ice Plant will run at full capacity, as no other ice plant employs traveling men. We will also manufacture Ice Cream and do a general rental cold storage business. Our Sorghum canning business will become nationally known in the next few years.

We have already gone through the "sweet" in that business which all new industries encounter, and last year in the city of Lexington, with much effort we placed 600 cases, this year, with less effort, we placed 2300 cases. We are also having calls from all parts of the country. We are beginning now to advertise this product and in a few years we will have a wonderful business built up. All of these connections will go to make up a "balanced business," a business

with uniform sales the year round; a business where you don't have to lay off men in one season and break in new ones in another; a business with steady incomes each month. In this new organization we will be able to control costs, buy right when the time is right, keep costs lower than a like business, efficiently build up a business in a business way.

Stocks Are Now Placed on the Market

This stock is being placed on the market at \$25.00 per share for common stock and 7 pct preferred stock at \$100.00 per share. We are working to place all of this stock where we do business. If you are interested in either common or preferred, take it up with us immediately. It is an opportunity rarely offered the general public to purchase stock in a company which has proven its worth; to get on the ground floor, and an industry you come in contact with daily.

All stock is sold subject to 20 pct. payment with order, balance to be paid before February 1, 1920. We solicit sales from people who desire an investment and who will appreciate returns, and not the speculator. The subscriber for small stock will be protected as well as the large share holder. It is the beginning of an industry, the opportunities of which have unlimited possibilities.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corn, calluses and "hard skin" on bottom of feet, then lift them off. When Frezzone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

ANNOUNCEMENTS.

For State Senate.

We are authorized to announce Hon. BRIG H. HARRIS, of Boyd county, as a candidate for the State Senate from the district composed of Boyd, Lawrence, Johnson and Martin counties, subject to the action of the Republican party.

The election of "non-partisan judges for our courts" is the dream of some impractical idealists. It would be fine, but there "ain't no such animal" as a non-partisan running for office.

President Wilson I swell along on a trip across the continent, speaking for the League of Nations. His first address was at Columbus and the last will be at Louisville on the return trip the last Monday in September.

Thousands of foreigners are returning to Europe from the United States, and while this cuts the supply of labor it also rids the country of a considerable amount of rubbish. Most of the anarchy is brought here from Europe.

Kentucky's State debt is now decreasing at a rate which will wipe it out in four or five years. It was never big enough to justify a howl, being only one-fourth as much as the debt of Atlanta, or Louisville, or a number of cities of about that class. New York city's indebtedness is sixty times as great as that of Kentucky. Very few states have as small a debt as Kentucky.

One body of organized labor in session a few days ago adopted a resolution demanding that six hours shall constitute a day's work, and five days or 30 hours shall be a full week. Thus we see where the mad strides being taken by labor are leading to. It is this lack of judgment that is giving unions their death blow. This is why so many employers of labor refuse to recognize unions. When they do so they surrender their property into irresponsible hands that care for nothing but to get all they can for the least possible return.

Stop, Read and Think!

All is well with a country where its chief goes freely to its inhabitants and in person explains pending policies and proposed actions. This happy condition is all the more emphasized when earnest, respectful attention is paid to his addresses by the people and there is a complete sinking of partisan feeling. The tour of President Woodrow Wilson on behalf of the ratification of the world peace treaty is therefore to be regarded as a comforting and assuring augury for the future.

Out of this appeal may come a welcome end to the delay and a decision that will satisfy because it will represent the majority sentiment of the country. If it should go against him, as did his appeal last year for a sympathetic Congress, it will still be a victory for democratic government, even though it destroys his fame in leadership.

Nothing is more certain than the old saying, that all disputes and troubles arise from misunderstanding. It is the view of the President that the League of Nations is at the bottom of the opposition that has been manifested. His belief is that official and expert explanation such as he is qualified to make will remove these urged objections. He goes forth, as he said in his opening speech, not to debate the question, but to expound the treaty. If this will serve to clear away the misunderstanding his mission will deserve to be called lofty and truly statesmanlike.

Already he has given the facts regarding Shantung and has flatly asserted that Japan will assuredly and in a short time return that peninsula to the sovereignty of the Chinese republic. Reference has been had to the Irish republic's claims and the explanation made that the Congress of Paris was, of necessity, compelled to deal only with the matters that arose out of the war with Germany and her allies. Assuredly even De Valera will not contend that Ireland's case came within this category.

What appeals most to the average man is the demand of the President to the opponents of the treaty that they present a better plan for the preservation of the peace of mankind or cease their bickering. The country, using a term born of the war, is fed up on criticism of a destructive character and hungry for constructive suggestions. On the whole it may be safely said it is weary of the subject in general and longs for action that will end the debate at Washington and in lesser forums.

To the American-reading public no better advice can be given than to follow the President's recommendation that the treaty be read carefully and that his speeches, as published by the daily press, be given calm consideration in connection with the terms of that instrument. Every man must remind himself that progress is the result of affirmative action. Opposition, while stimulative, will not save the world nor will mere noisy negations construct the policies of mankind. Suspension of attention to the discussions at Washington, it is believed, will be beneficial to the public, if, on the other hand, it will give heed to the expounding of the terms of the treaty upon which the President is now engaged. By the time he returns to the capitol there should be arranged a final vote so that dispositions for the future may promptly be made.—Cincinnati Enquirer.

The railroad strike threatened last week was averted by the appeal of President Wilson for a truce. The time fixed by the labor leaders is 30 days, in which time the cost of living must be decreased.

Mr. and Mrs. Geo. Hays have gone to housekeeping in Louisville.

IN MEMORY

On the morning of August 26, 1919, while the earth was yet wrapped in darkness, the death angel visited the home of D. A. O'Daniel at Hulett, Ky., and claimed for its victim the loving daughter Gussie. She had been in delicate health for some time and had made a heroic struggle for mastery but the blighting hand of the destroyer had been too heavily laid upon her and she soon answered the call to which no ear shall be deaf. All was done that was possible by kind and anxious hearts. God saw otherwise and sent his angel to pluck the sweet life and transplant it in the heavenly garden.

Gussie was well and favorably known to a large circle of friends who cherish the memory of her life with keen appreciation. She was a popular girl, winning friends and associates everywhere by her frank and sincere manner.

In her death the family not only lost a loving member, but the community one of its most loyal workers; her associates one of their favorites and our country one of its best teachers. It has been said that death loves a shining mark and we are often reminded of this when death claims for his own the fairest and best loved of earth.

This dear girl was a special friend of the writer and as our co-worker in the same profession we always found her to be the same true-hearted, noble girl whose life was inspired with high ideals and lofty purposes. We have walked and talked together here for the last time but as it has been ordained that the best of friends must part so the hour to say good-bye has come.

She left a very bright testimonial behind that she has gone to the home that the Lord went to prepare for His children. Heaven will always seem nearer and dearer to us since this dear friend's going.
Alas! 'tis hard to give thee up.
But to the grave thou art consigned,
And though to hope we fondly cling
We will say we are resigned.
And now farewell, no more on earth.
Will we be gladdened with thy voice,
But in a better world than this
We hope to meet thee and rejoice.
HER FRIEND, E. L.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

In our opinion shoe prices have not yet reached their highest mark, for many models purchased by us early in the season show a marked advance in their former prices. Any woman who is delaying her purchase because of a possible reduction is sure to be disappointed and will be obliged to make her selection at a time when style and size ranges are not nearly so complete. Our present prices are assured, our assortments complete, and a more opportune time to choose from them could hardly be presented.

REMARKABLE VALUES

The models we are showing at the above mentioned prices offer some really remarkable values, for they are worth more on the market to-day.

Whew! Some travel! And all for you! It would tire you to death to trapse around that much yourself, but writers and investigators for

The COUNTRY GENTLEMAN

cover that much ground every year. The distance of twelve times around the world, they go, to get the important farm facts, the broad national viewpoints that are presented each week in the pages of the one great national farm weekly.

In addition to the scores of men who are traveling for THE COUNTRY GENTLEMAN in the United States and Canada, John R. McMahon is in Europe to study the farming of the new nations born of the world war. There are lessons for the American farmer in the practices of the Russian, the Pole, the Bohemian, the Italian, the Dane, the Jugo-Slav,

and all the rest. Also it will pay you to know how much food they are growing, for we must make up the deficit. Mr. McMahon's articles will be starting right soon. The way to insure getting all of them—and a year full of farm progress besides—is to subscribe today for THE COUNTRY GENTLEMAN. It costs only 1 Dollar for 52 big issues.

Common-Sense for Corns, "Gets-It"

The Great Painless Corn Loosener. Simple as A. B. C. Never Fails. If you have ever tried to get rid of a corn by bundling up your toe with bandages, or by using knives that made your toe red and almost

raw, or tried to drag your corn out with a knife, there will be a surprise waiting for you when you use "Gets-It." Imagine peeling your corn off gloriously, easily and painlessly, just like peeling off a banana skin. Well, that is what happens when you use "Gets-It." There is nothing else that will give you this same result. Millions of folks have had the same blessed experience. Why putter and suffer, limp, and spoil a good time for yourself and your friends, or your peace of mind while trying to attend to business? Use "Gets-It," the simple common-sense way. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago, Ill. Sold in Louisa and recommended as the worlds best corn remedy by Louisa Drug Co.

"FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum Powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."
Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dosage.

GIRLS! USE LEMONS

FOR SUNBURN, TAN

Try it! Make this lemon lotion to whiten your tanned or freckled skin.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whitener, at very, very small cost.
Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands and see how quickly the freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

Glad to Try Anything
 "Three years ago my system was in a terribly run down condition and I was broken out all over my body. I began to be worried about my condition and I was glad to try anything which would relieve me. Peruna was recommended to me as a fine blood purifier and tonic, and I soon found that it was worthy of praise. A few bottles changed my condition materially and in a short time I was all over my troubles. I owe my restoration to health and strength to Peruna. I am glad to endorse it."
